OUTSTANDING ANNUAL PERFORMANCE RATINGS

There are attached for approval annual ratings for Messrs. Sizoo, White, Walsh and Moore, covering the period from April 1, 1961, through March 31, 1962, rating their services as Outstanding. Mr. Belmont has signed the ratings of Messrs. Sizoo, White and Moore and I have signed the rating of Mr. Walsh as Reviewing Official.

In the event you approve these ratings, I respectfully request that the Director sign both the original and the copy of these ratings as the Approving Official. Thereafter they must be submitted to the Deputy Attorney General in the Department for approval by the Efficiency Awards Committee. Upon approval of these ratings by the Committee, they will be returned to the Bureau and Messrs. Sizoo, White, Walsh and Moore will be furnished copies of their ratings. They will also be entitled to cash incentive awards under the provisions of the Incentive Awards Plan. In this regard we have in the past given awards of \$500 to Assistant Directors and above, \$400 for officials below the level of Assistant Director who are in Grade GS 16 or above, \$300 for those in Grades GS 13 through GS 15 and \$200 for those in Grade GS 12 or below. Messrs. Sizoo and Moore are in Grade GS 17, Mr. White is in Grade GS 16 and Mr. Walsh is in Grade GS 15.

Should you agree with the foregoing, these ratings will be forwarded to the Department for approval at such time as other Outstanding ratings have been prepared and approved in the Bureau.

RECOMMENDATION:

It is recommended that the Director, as Approving Official, sign the original and copy of the attached Outstanding performance ratings for Messrs. Sizoo, White, Walsh and Moore, and that upon approval of these ratings Messrs. The Director has inquired whether or not he was consulted on the decision not to surveil Dr. Robert Soble. He was not consulted. The essential reason for not doing this, which turned out to be a poor one, was that Soble was known to be a dying man and any surveillance of him would greatly embarrass the Bureau and subject us to repeated criticism by unfriendly press men, and possibly some friendly press men.

As it turned out, we were wrong, for the Director should have been consulted. There is now no sound excuse for not doing this and none is being offered.

Steps have been taken to prevent a recurrence of this in the future through instructions given to all Section Chiefs and supervisors. Further, to drive the point home more vigorously, letters of censure are being recommended as set forth below.

RECOMMENDATIONS:

1. That I be censured for my part in the over-all supervision of this matter.

2. That Inspector D. E. Moore be censured for the same reason.

3. That Section Chief William A. Branigan be censured for not following this situation more closely with his supervisors.

William C.
On the basis of Mr. Sullivan's memorandum of 7-7-62 the Director has approved letters of censure to Mr. Sullivan, Inspector Donald E. Moore, Section Chief William A. Branigan and Supervisor Elbert T. Turner for the mishandling of the Soble case. In addition, by routing slip the Director has instructed that in view of SA Turner's gross mishandling of the case and the failure to place a surveillance on Soble, SA Turner is to be transferred to the field.

In connection with SA Turner's transfer and return to investigative duties it will be necessary to demote him from his present salary of \$13,510 in grade GS-14 to \$11,935 in grade GS-13. He is being advised of this demotion in the letter of censure.

In accordance with the above, there are attached letters to Sullivan, Moore, Branigan and Turner. The transfer letter ordering SA Turner to the Cleveland Division is also attached.

RECOMMENDATION:

That the attached letters be approved and sent.

Dear Mr. Moore:

There has been gross mishandling in the Domestic Intelligence Division of the Espionage case relating to Dr. Robert Soble and you share in the responsibility for the failure to take appropriate measures to prevent the escape of this convicted subject from this country. There was absolutely no justification for this omission or for the failure to submit to me the question whether preventive action should be taken.

In view of the above, I shall expect you to demonstrate greater consideration for the Bureau's interests in the future and to insure that further derelictions of this nature are avoided.

He comes to his present position with a well-rounded background in both field office and Seat of Government administration. Mr. Moore is handling his present assignment in a highly acceptable manner.

On 5/11/62, Mr. Moore was given an incentive award in connection with an Outstanding annual performance rating. Since that time, he has received two letters of commendation - one for his handling of a "leak" case and the other involving an espionage subject - and one letter of censure, for his mishandling of the Dr. Robert Soble espionage case.

Mr. Moore may be considered a specialist in the espionage and intelligence field. He has a deep interest in this work and pursues it systematically and effectively. Handling the responsibility that he does in this particular field, Mr. Moore is rendering to the Bureau a very valuable contribution.

Memo to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division has occupied the entire sixth and eighth floors, Fiddell Building, 1730 K Street, N. W., since 8/12/61. Space is adequate and well organized but has limited room for expansion. Additional personnel required to maintain security and flow of mail due to location outside Justice Building. Physical security is satisfactory.

Space is very well maintained. Minor housekeeping delinquencies noted and ordered corrected. Furniture and fixture needs are being properly requested and handled consistent with availability of funds. No delinquencies noted in condition or storage of three automobiles assigned to Division's Liaison Section.

INVESTIGATIVE OPERATIONS VERY GOOD

Pending active matters handled by Division totaled 24,363 as of 10/31/62 (increase of 727 over 10/31/61). Field delinquency in these matters as of 10/31/62, 5.5% as compared with 8.4% at time of last inspection.

In connection with current programs to identify illegal agents and penetrate Soviet-bloc espionage operations, 152 Soviet officials and 39 satellite officials have been identified as intelligence agents since last inspection. The number of double agents now being operated is at all-time high of 61. Two Soviet Intelligence Officials are cooperating with us in their present assignments.

On 11/16, 17/62 we arrested three Cubans in New York for conspiracy to commit sabotage. This was made possible through the development of a high-level informant. Three double agents have been developed and are operating against Cuban officials with considerable effectiveness. Total of 54 Cuban aliens now on Security Index representing increase of 33 since 10/5/62 and others are being considered under revised criteria.

Extensive and successful accomplishments also noted in regard to the Dominican Republic, technical coverage of more diplomatic establishments in the United States, the operation of a satellite double agent, the penetration of Yugoslav operations, and participation in South American Assessment Teams.

Memo for Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Two highly placed informants continue to furnish extremely valuable information on plans and activities of Soviet Union and National Committee of Communist Party, USA, including funds furnished to Communist Party by Soviets. Penetration first made this year into the Socialist Workers Party's Trotsky School in New Jersey. 206 informants made available to Department in connection with proceedings under Internal Security Act of 1950. Other informants have made significant progress and we now have a total of 401 live informants in the Communist Party on all levels compared to 431 as of 1/1/62. Programs in effect to replace 8 informants exposed through testimony to date and others to be exposed in pending cases.

11, 120 names on Security Index as of 11/23/62 represents slight decrease. 1053 individuals included in Section A of the Reserve Index. Emergency Detention Program is up to date. 1587 subversives interviewed during period 12/1/61 to 8/31/62 resulting in development of 116 security informants, potential security informants and sources of information. Closely supervised disruptive and counterintelligence activities against the Communist Party have produced very good results both in United States and Mexico. Anagram Program has realized an estimated total of \$673, 321.41 in savings since last inspection.

Central Research Section produced excellent results during last year in special project on Communism which appeared in final form in October. Liaison Section closely supervised and functioning effectively (See also Contacts). As of 10/31/62, 17, 465 investigations (including name checks) conducted in 1962 for foreign police and security agencies compared to 16, 095 during entire 1961. Defense plans of all offices in current status and being closely supervised.

Suggestion memoranda prepared by Inspector in effort to facilitate supervision or improve effectiveness in five individual situations. Division ordered by Inspector to give close attention to re-evaluation of two intelligence programs due to lack of productivity. Programs involved examination of handwriting on new savings accounts in several selected cities to identify Soviet-bloc illegal agents and alerting Key Scientists in the San Francisco Division to the possibility of espionage approaches.

ADMINISTRATIVE OPERATIONS VERY GOOD

Supervision of work well handled and very effective teamwork noted among officials at all levels. Work load found to be equitably distributed and closely followed by Division.

Stenographic and typist production 2.19 pages per hour (last inspection 2.87 pages per hour; current SOG average is 2.86). Division ordered to stress production and direct more attention to eight stenographers with less than 90 days' experience. Mail flow satisfactory. Improvement noted in accuracy of outgoing correspondence. Division instructed to reduce amount of delinquent routine mail.

Memo for Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Registers, time and attendance, leave and inventory records properly maintained and no errors located. Odd-hour shifts necessary and justified. No deficiencies noted in tickler systems. Mail covers and Technical Informant quotas closely adhered to and carefully supervised.

Eight form errors detected in 435 active files reviewed (1.84%) and one substantive error (0.23%). Necessary corrective action taken or ordered to reduce these errors.

PERSONNEL MATTERS VERY GOOD

Personnel appeared alert, enthusiastic and very capable. Morale is excellent. Harmonious working relations exist and all employees are gainfully occupied at all times.

No derelictions noted in training programs. Lectures to New Agents have been limited somewhat concerning sensitive security matters as result of allegations by former SA [redacted] Conferences are well handled and constructive. Voluntary overtime appears adequate, productive and equitably shared by supervisory personnel (August - October, 1962, average 2 hours 26 minutes). Membership in the FBIRA is 100% and activities are well attended. Incentive Awards and commendation programs handled satisfactorily. Employees very active in Suggestion Program. Promotional Availability List is properly maintained; no errors noted in Position Classification Matters, exit interviews, or in operation of Division funds. b6
b7C

Submissions to "The Investigator" were excellent. No abuses detected in clerical rest periods. Sick leave properly controlled. Agent personnel are within weight limits. Three agents presently on limited duty, all equitably sharing work load - justified. Division exceeded its quota under blood donor program.

Desk-by-desk analysis made of the work in each Section. Personnel steadily reduced since January, 1953, with basic work load essentially the same. Agents have been reduced from 151 to 113 and clerical employees from 161 to 150. Work of one supervisor in Liaison Section successfully absorbed since his departure in October. Inspector recommends in separate memoranda that this vacancy not be filled and that experienced supervisor who retired 11/21/62 be replaced for 90-day trial period by supervisor from another unit. With these two decreases, personnel will be adequate but not excessive.

CONTACTS EXCELLENT

Assistant Director and several supervisors continue to actively participate in giving extremely effective speeches on Communism and Espionage

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Dear Mr. Hoover:

Just a short note to say congratulations on the apprehension of the Russian spies. The work done here by John Malone, Joe Schmidt and their men must have been outstanding. The coordination afforded their efforts by Don Moore, Bill Sullivan and Al Belmont would have had to be in the same category.

The publicity, both news and editorial, was exceptionally fine and reflects so favorably on the office here and Deke DeLoach's activities there. The thing that is so evident to me though, is that none of these people could get the job done without the painstaking groundwork you personally have laid over the years. You should be very proud of your handiwork.

SUBJECT: ANNUAL PHYSICAL EXAMINATION

DATE: October 2, 1964

cc Mr. Sullivan
Administrative
Division

During my annual physical examination at Bethesda on 7-22-64, I was instructed to report to the eye clinic for examination concerning a chalazion on my right eyelid.

Subsequently I did receive further examination at the eye clinic at Bethesda on 8-14-64, at which time the examining doctor suggested I see my personal doctor.

On 8-24-64, Dr. Francis J. Crilley, 1726 Eye Street, N. W., removed the chalazion and I have had no further difficulty in this regard.

Memorandum to Mr. Tolson

Re: Inspection - Domestic Intelligence Division

Subversive Control Section credited with exposing security subject who violated probation on criminal charge, thereby removing him from agitational activities and discrediting organizations with which connected. Counterintelligence efforts to expose communist spawned W. E. B. DuBois Clubs of America continuing. Have informant in contact with leader of Movement for Independence of Puerto Rico. Security Index 9974, down 327 due to dropouts; Reserve Index-A, 1720, up 206. Nationalities Intelligence Section reorganized June, 1965, result of Dominican crisis. Valuable intelligence regarding various non Soviet-bloc countries obtained through live informants and 27 technical surveillances on diplomatic establishments. Information widely disseminated to intelligence community including White House. Sources produced valuable timely information regarding plans of United Nations delegations during debate on Vietnam. 8 Cuban double agents (8 last inspection) currently operational and furnishing valuable information. Chinese communist intelligence activities increasing; valuable informants developed. Latin-American Section receiving and disseminating valuable information regarding Dominican situation. Dominican Index, similar to Security Index, established 11/18/65 to record all Dominican subversives in Dominican Republic and other countries. Index contains 413 Dominican subversives. Since establishment, Legat Santo Domingo developed 12 informants, 3 potential informants, 1 confidential source and over 30 sources of information, which is noteworthy under operational circumstances.

Since last inspection, Research-Satellite Section has increased active double agents from 57 to 71, potential double agents from 42 to 54 and inactive double agents from 16 to 23. Efforts to increase double agent coverage in Albanian, Hungarian, Romanian and Yugoslav fields stressed. Survey ordered to streamline dissemination of teletype data. Division programs periodically evaluated, unproductive ones deleted or revised. Security informants total 1223 up 95 from last inspection. Potential security informants increased by 126 to 549. Five informants developed under TOPLEV program since last inspection, 2 functioning in SOLO operation and 3 in Nation of Islam. Technical installations very closely supervised and controlled; authority of Attorney General obtained prior to each installation. Legal Attaches credited with location 231 Bureau fugitives (including 2 top ten fugitives), 125 Selective Service delinquents, 03 automobiles, \$203,496 in recoveries.

Administrative Operations - Very Good (Last Inspection - Good). Work load equitably distributed in division. Front office and section supervision smoothly operating and effective. Errors of form detected 2.02% (last inspection 2.92%). No substantive errors detected. Stenographic production (current inspection 2.47 pages per hour) exceeds that reported during previous inspection (2.13 pages per hour); however, still below Seat of Government average of 2.70 pages per hour.

Memorandum to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Over-all percentage of retypes increased from 5.28% to 9.48% which has been due to increase in Agent and stenographic errors. Division instructed to intensify training and indoctrination of personnel. Minor errors detected in time and attendance registers - none affecting fringe benefits. No abuses in sick leave noted. Odd-hour shifts justified. Economy program actively supported by division through streamlining and liaison contacts which have resulted in savings to Bureau. Since last inspection, division has placed 5 new Automatic Data Processing programs in operation. These programs should promote greater efficiency in investigative and administrative operations. There is a continuing need for the Latin-American Section, primarily due to increased work load as a result of this country's involvement in the Dominican Republic situation. Inspector recommended certain changes in mail room operation which should streamline operation, provide for closer supervision of employees and cause reduction of clerical complement by one employee.

Personnel Matters - Good (Last Inspection - Very Good). Total personnel 306 (approved Bureau complement set at 120 agents, 177 clerks) up 11 agents and 22 clerks, mainly due to creation of new section (Latin-American) and increased work in Chinese Unit, Nationalities Intelligence Section since last inspection. No additional personnel requested or justified. Analysis of mail room operation disclosed this unit can effectively operate with one less mail clerk (from 13 to 12 clerks). Adjusted personnel complement will be 120 agents and 176 clerks; considered adequate and not excessive and will absorb division case load increase of 4277 cases since last inspection. Two male clerks dropped from rolls during inspection due to personal misconduct (handled separately); Inspector emphasized need for more thorough indoctrination of clerical personnel. Morale high; voluntary overtime productive and equitably shared. No agents overweight or on probation; 4 on limited duty - all productive, retention in division justified. Division conferences disclosed well organized, coordinated, objective and constructive approach. FEIRA membership 100% and active response to FEIRA activities; excellent contribution of items to Investigator since last inspection. 5 work related injuries since last inspection (increased); safety emphasized. Employees recognized through commendations and incentive awards program disclosed substantial increase since last inspection (increase of 100% for incentive awards and 500% for commendations). Personnel advancement program being handled satisfactorily.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director Sullivan and supervisors in division currently maintain 382 contacts, all rated excellent, in varied fields and in position to furnish information and services in foreign and domestic fields. Liaison maintained with civilian and military agencies. Legislation concerning division closely followed. Representatives of division made

I received notice of jury duty summons for 10-27-66 at Circuit Court, Alexandria.

Inasmuch as I served on the jury panel just a year ago, I called Deputy Sergeant Earl S. Robey to determine if this might not be a mistake. Mr. Robey said that in Alexandria, a person is not called on to serve more than once a year, but can be called on in successive years. He advised, however, that in view of my prior service, that he thought I would only need to report for jury duty on the one day, 10-27-66.

I will report as requested.

Memorandum to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Subversive Control Section held conference at Seat of Government (10/31 and 11/1/66) to prepare program to deal with Puerto Rican Nationalist matters in view of plebiscite scheduled in July, 1967. Plebiscite to determine form of Government citizens desire and potential for violence exists. In February, 1967, San Juan advised it had reactivated one informant and had 2 potential security informants with good potential in largest and most militant of groups seeking Puerto Rico independence.

Nationalities Intelligence Section furnishes valuable intelligence regarding non-Soviet-bloc countries to intelligence community and White House. Sources provide timely and valuable information re various United Nations delegations. Chinese intelligence activities increasing. Inspector furnished 2 suggestions to broaden base of Bureau operations in Chinese Communist intelligence field. Research Satellite Section has re-emphasized nationality group coverage of extremist elements and other anti-Communist groups. Latin-American Section continues to receive and disseminate pertinent information re Dominican situation. Dominican Index similar to Security Index contains 314 Dominican subversives as Key Figures. 19 double agents currently being directed against Cuban Intelligence Service in the United States.

Division programs are periodically evaluated with unproductive ones deleted or revised. Division shows imagination and diversified thinking in developing new programs. Inspector recommended deletion of one program in Soviet illegals field because of lack of results for number of years. Suggested another program be carefully considered at next evaluation for possible discontinuance if not productive. Streamlining of Plant Informant Program recommended during this inspection. Division currently holds conferences with representatives from various field offices to develop programs for specific needs. Inspector recommended this technique be used whenever feasible to provide solution to common problems.

Administrative Operations - Very Good (Last Inspection - Very Good). Division work load appears equitably distributed. Slight drop in Research-Satellite Section work load due to fact United Nations session ended in December and not scheduled to resume until April. Front office and section supervision operating effectively and smoothly. Form errors detected 1.91% (last inspection 2.02%). No substantive errors detected. Stenographic production 2.01 pages per hour below Bureau average and down from previous inspection. (Figures include production of 5 stenographers who entered on duty one week before survey.) Retypes above Seat of Government average. Division instructed to intensify training and indoctrination of personnel. No errors located in time and attendance registers affecting fringe benefits. No abuse of sick leave noted. Odd-hour shifts justified. Voluntary overtime equitably shared and productive. Division economy conscious. Stops on incoming communications reduced significantly during inspection. Remaining stops justified. No instances of delayed or improper submission of information by field detected and no instances of delayed mail or file handling by supervisors noted.

Personnel Matters - Very Good (Last Inspection - Good). Total personnel 300 (approved Bureau complement set at 127 Agents and 173 clerks), down 2 Agents and 4 clerks since last inspection. Increased efficiency resulted in clerical reduction in

Memorandum to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

steno pool and Agent reduction in two sections. No additional personnel requested. Assistant Director agrees personnel adequate but not excessive. Assistant Director indicated possible future need for Special Agent in Central Research Unit for fiscal 1968. Inspector pointed out slight case load drop in Research-Satellite Section and possibility that future needs could be filled from within Division. Assistant Director agreed he would remain alert to fill possible future needs from within Division and if unable to do so would submit full justification for any request.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and supervisors in Division currently maintain 540 contacts - increase of 158 since last inspection. Contacts in varied fields and in position to furnish valuable information and services in both foreign and domestic fields. Inspector recommended and Assistant Director Sullivan agreed contact list be purged on six-month basis rather than annually.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee Donald E. Moore

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

RATE ITEMS AS FOLLOWS:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all elements be + and (B) that each and every rated element be factually justified by narrative details, including reasons for considering each worthy of Special Commendation and be attached to FD-185a.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An official rating of "Unsatisfactory" must be supported in writing stating (1) wherein the performance is unsatisfactory, (2) the facts of the (90-day) prior warning, and (3) the efforts made after the warning to help the employee bring his performance up to a satisfactory level and must be attached to FD-185a.

JANUARY 1968
(For use only until April 14, 1968)

INSTRUCTIONS TO EMPLOYING AGENCY

1. **Who must file.**—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176-T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.
2. **Automatic cancellation of previously filed waivers.**—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box C of SF 176-T, on or before that date.
3. **Employees failing to file.**—If an employee does not return a completed SF 176-T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176-T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date: mark box B, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.
4. **Review of completed forms.**—(a) Review both copies of the SF 176-T for legibility, completeness, and consistency. Reconcile with the employee any obvious major

discrepancy such as a mark in more than one box.
(b) If the employee marked box A or box C, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:

Office of Federal Employees' Group Life Insurance
(Statistical Study)
4 East 24th Street
New York, New York 10010

(c) If the employee marked box B, detach and destroy the stub.

5. **Date of receipt and effective date.**—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.
(b) The effective date is determined from the table below.
6. **Disposition of forms.**—(a) File the Original SF 176-T in the official personnel folder in all cases.
(b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.
(c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.
7. **Use of SF 176-T.**—SF 176-T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

TABLE OF EFFECTIVE DATES

DATE SF 176-T RECEIVED BY EMPLOYING OFFICE	EMPLOYEE'S DECISION	EFFECTIVE DATE (IF NO WAIVER, SF 53, IN EFFECT)	
		OF DECISION	OF DEDUCTIONS
On or before February 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective February 14, 1968.	Deductions begin 1st day of 1st pay period beginning on or after February 14, 1968.
	Declines optional (but not regular) (box B).	Declination effective February 14, 1968.	
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which February 14, 1968 falls.	Deductions stop last day of pay period in which February 14, 1968 falls.
After February 14 but not later than April 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
	Declines optional (but not regular) (box B).	Declination effective on date of receipt, but employee loses automatic optional protection on February 14, 1968.	
	Cancels previously elected optional (but not regular) (box B).	Cancellation effective last day of pay period in which received.	Deductions for optional stop last day of pay period in which received.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which received.	Deductions stop last day of pay period in which received.

- NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box C), A and B elections do not affect regular insurance effective dates.
2. An employee for whom the agency files SF 176-T because he failed to file is deemed to have declined optional, but not regular, insurance.
3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176-T before that date will not cancel an SF 53 any earlier. Deductions begin the day he becomes insured.
4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

SUMMARY

Officials: William C. Sullivan, Assistant Director in Charge since 6/2/61; Inspector Joseph A. Sizoo, Number One Man, and Branch Chief (Internal Security - Liaison) since 9/13/67; Inspector Donald E. Moore, Branch Chief (Espionage - Research) since 10/14/56. Last inspection: 2/20-3/10/67.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division occupies same space as last year, half of 6th floor and entire floors 7 through 10 of commercial building at 9th and D Streets, N.W. Space considered attractive and secure. Housekeeping delinquencies of minor nature either corrected on spot or ordered corrected. Division has use of 2 cars which are fully utilized. No safety defects. Storage secure. One auto accident since last inspection. Agent not held responsible.

Specific Division Operations - Excellent (Last Inspection - Excellent). Potentially explosive racial situation exists with activities of militant and violence-prone leaders such as Stokely Carmichael attempting to unite Negro civil rights groups into a Black United Front, and Martin Luther King planning massive civil disobedience demonstration in April, 1968. Marked increase in racial informants from 574 to 1,148 or 93%. Need for additional informants strongly stressed.

Total pending security matters 32,667 (1/31/68) up from 29,449 (2/28/67) -- 11% increase. Field delinquency 1/31/68 (5.6%) down from last inspection (7%). Division instructed to continue emphasis on New Left Movement and leading activists. Security informants decreased from 1242 (2/67) to 1032 (2/68) due to conversion of some informants to racial informants. 318 informants furnish coverage of Communist Party, USA. Division has instituted streamlining operations and procedures which will result in savings to Bureau. Suggestions made by Inspector will assist in this regard. Nationalities Intelligence Section continues to develop valuable intelligence data on non-Soviet Bloc countries. Informant coverage on activities of United Nations delegations expanded. more informants concerning Chinese communist intelligence activities. 4 double agents (1 in joint operation with [redacted] being operated in Chinese intelligence field. Need stressed for additional informant and double agent coverage, intensification of investigations to identify Chinese intelligence activities in U.S. stressed. Suggestion made by Inspector to inform Legat Attaches on world-wide Chinese intelligence activities. Case load Latin American Section substantially increased since last inspection due to intensification of Cuban Refugee Program to detect Cuban intelligence agents; 24 double agents currently being operated against Cuban Intelligence Service, increase from last inspection (19 double agents). 7 of 11 Cuban United Nations officials identified as known or suspected intelligence agents. Inspector's suggestion implemented to corroborate Cuban double agent contacts with Cuban United Nations officials. Streamlining procedures instituted by Division in handling informants and other programs by Legat, Mexico City, should result in savings of \$37,000. b7D

As of 2/1/68, 44 double agents being operated against Soviets (51 last inspection); 222 individuals under development as potential double agents. 5 defectors in place (same as last inspection), all presently out of country; however, 2 actively operated in past year and furnished valuable information. Instructions issued to intensify efforts to develop more coverage. Counterintelligence program effective. Espionage conviction obtained on [redacted] Air Force Sergeant, sentenced to 30 years' imprisonment on charge of conspiracy to commit espionage. Streamlining reporting procedure instituted by Division on foreign nationals travel cases which will result in savings to Bureau in excess of \$30,000. Research-Satellite Section continues to develop valuable intelligence information on 8 Communist countries. 57 double agents currently being operated against satellite countries, 8 developed since last inspection. 2 Hungarian defectors effectively handled. Division periodically evaluating programs, and streamlining where possible. Imagination and diversified thinking in development of new programs. Inspector suggested deletion of one program involving duplication of reporting information. Trend of retaining excessive copies of communications ordered corrected. b6 b7C

Administrative Operations - Very Good (Last Inspection - Very Good). Reorganization of Division since last inspection has resulted in better balance and alignment of work. Front Office and Section supervision effective and efficient. Form errors detected 1.74% (last inspection 1.91%). No substantive errors detected. Stenographic production 1.75 pages per hour substantially below Seat of Government average of 2.82 pages per hour and down from previous inspection (50% of stenographic pool entered on duty within 90 days prior to inspection). Retypes above Seat of Government average. Inspector instructed emphasis be placed on training and close supervision to increase production and reduction of retypes. No errors located in time and attendance registers affecting fringe benefits. No abuse of sick leave noted. Odd-hour shifts justified. Voluntary overtime equitably shared and productive. Division economy minded. Marked reduction in stops on incoming communications since last inspection; 6 remain in effect - justified. No unnecessary delays in handling mail or files noted. Supervisors alert for delayed reporting by field.

Memo for Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Personnel Matters - Very Good (Last Inspection - Very Good). Total personnel 306 (126 Agents, 180 clerks), down 1 Agent and up 6 clerks since last inspection. Request made for 4 additional Agent Supervisors and 1 clerk due to increase in work in Cuban and racial fields, as well as Department's requests relative to hearings by Subversive Activities Control Board. Request justified by Inspector's analysis (approved separately). With additions, complement will be adequate but not excessive. Personnel complement Legal Attaches' Offices 65 (31 last inspection), reduction of 8 Agents, 8 clerks. No overweight Agents; one Agent on limited duty - retention justified. One Agent on probation, removal recommended (handled separately). Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and Supervisors in Division have 115 contacts of high quality in varied fields which are in position to furnish valuable information and services in both foreign and domestic fields.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee Donald E. Moore

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

RATE ITEMS AS FOLLOWS:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective ratings:

- "Outstanding" adjective rating requires (A) that all elements be + and (B) that each and every rated element be factually justified by narrative details, including reasons for considering each worthy of Special Commendation and be attached to FD-185a.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An official rating of "Unsatisfactory" must be supported in writing stating (1) wherein the performance is unsatisfactory, (2) the facts of the (90-day) prior warning, and (3) the efforts made after the warning to help the employee bring his performance up to a satisfactory level and must be attached to FD-185a.

ACCIDENT IN PERSONALLY OWNED AUTOMOBILE
4-12-68
INFORMATION CONCERNING

This is to advise of an accident in which the writer was involved while driving his personally owned automobile on Highway 95 approximately four miles north of Fredericksburg, Virginia, at 9:45 a.m., 4-12-68. Details are as follows:

The writer, while on annual leave, was traveling with his family on Route 95 which was heavily congested with military convoys, troops being released after duty in Washington during the recent riots. The writer had just passed one convoy of troops and was proceeding at approximately 55 miles per hour (65 miles speed limit) in fairly heavy traffic. While on a slight downgrade, the car ahead of the writer slowed down sharply. I was unable to stop in time. Seeing I would probably strike the car, I attempted to pull off on the left shoulder, but my right front bumper and fender struck the rear of the car in front. The right fender and grill of my car were damaged and the right bumper and trunk of the car in front were damaged, neither seriously.

The accident was investigated by a member of the Virginia State Police who issued no citations. Both the writer and the driver of the other car, [REDACTED]

[REDACTED] Alexandria, Virginia, are insured for liability. I have notified my insurance company and filed the required Virginia accident report.

inspection. Currently operating 13 active and 6 potential double agents against Cuban Intelligence Service, decrease from last inspection (24 double agents). 9 of 14 Cuban United Nations officials identified as known or suspected intelligence agents.

Administrative Operations - Very Good (Last Inspection - Very Good). Front office and section supervision effective. No substantive errors detected. Stenographic production 2.33 pages per hour, up from previous inspection but substantially below Seat of Government. Voluntary overtime equitably shared and productive. Division economy conscious. Stops on incoming communications reduced from 5 to 4 since last inspection. No unnecessary delays in handling mail or files noted.

Personnel Matters - Very Good (Last Inspection - Very Good). Total personnel 303 (approved complement 314 -- 127 Agents and 187 clerks). Requests made for 2 additional Agent supervisors due to substantial increase in work load Racial Intelligence Section; and 2 clerical employees in Racial Intelligence and Latin American Sections, respectively. Work load in Racial Intelligence Section has increased substantially but based on Inspector's analysis of overall work load, it is believed Division can absorb needed increase of 2 Agents in Racial Intelligence Section and still reduce complement by 2 Agent supervisors, thereby reducing Agent supervisory staff from 127 to 125 (previously cut from 130 to 127 when streamlining security procedures adopted). Based on increased work load in Racial Intelligence Section, addition of 1 clerk believed justified (handled separately). Request for additional clerk in Latin American Section not justified due to reduction of work load. Assistant Director agreeable to reductions in Agent personnel (handled separately). No Agents on probation -- morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and supervisors in Division maintain 140 contacts in varied fields, all in position to furnish information and services in foreign and domestic fields.

Re: Inspection - Domestic Intelligence Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE EXCELLENT

Division occupies space on half of 6th floor and entire floors 7 through 10 of commercial building at 9th and D Streets, N. W. Space secure, neat and excellently maintained. Recently repainted throughout. Minor housekeeping delinquencies ordered corrected. Two cars assigned to Division fully utilized -- no safety defects -- storage secure.

SPECIFIC DIVISION OPERATIONS EXCELLENT

Racial situation extremely explosive nationwide, with international ramifications. Black Panther Party widely active, with doctrines of hate, advocacy of violence and destruction. Many other similar organizations. Situation being closely followed. Since last inspection racial matters case load up 19.6%, racial informants increased over 300%, individuals on Agitator Index up almost 400%. Black Nationalist Photo Album, covering key figures, set up in all domestic field offices, and Ottawa and Mexico, with dissemination to Central Intelligence Agency and [redacted] b7D
Klan membership down 15% largely due to successful counterintelligence action. Division making prompt dissemination of pertinent information to White House, Department and other concerned agencies.

Total security matters (5/1/69) 30,969, including 975 pending inactive Security Index cases, down from 32,667 (1/31/69) -- 5.2% decrease. SOLO operation continues to furnish valuable information, total of 31 missions completed, 7 since last inspection-- noteworthy. Division closely following New Left movement. Security informants increased from 1032 (2/68) to 1180 (5/1/69). Department has made numerous requests of Division in connection with proposed hearings before Subversive Activities Control Board but hearings held on only 6 individuals since last inspection. Division instructed to follow closely to insure manpower not needlessly tied up.

As of 5/1/69, 86 double agents being operated against Soviets (44 last inspection). 218 individuals under development as potential double agents (222 last inspection); 38 individuals considered inactive double agents. No defectors in place (5 last inspection). Counterintelligence program effective. No convictions since last inspection and no persona non grata actions in Soviet cases. Petition for writ of certiorari filed on behalf of [redacted] Air Force Sergeant convicted 1967 and sentenced 30 years denied by Supreme Court. Petitions filed for writs of certiorari on behalf [redacted] (Soviet) and [redacted] (American), convicted 1964 for b6 b7C
espionage, resulted in vacating of judgment by Supreme Court 3/69. Case remanded to District Court on question of use of electronic surveillances -- pending.

Memorandum to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

Nationalities Intelligence Section continues to develop valuable intelligence data on non-Soviet Bloc countries. 5 double agents (4 last inspection) being operated against Albania. Established programs continuing to develop positive intelligence information. Informants against Chinese communist intelligence activities have increased from 39 to 64. Informant coverage on activities of United Nations delegations expanded. 5 double agents (4 last inspection) being operated in Chinese intelligence field.

Research-Satellite Section continues to develop valuable intelligence information on 7 communist countries (Albania not included). 61 double agents (excluding Albania) being operated against the 7 countries, increase of 8 since last inspection. 2 Czech defectors handled effectively.

Latin American Section case load decreased by 258 cases since last inspection as result of streamlined procedures adopted; change in reporting procedures of Security Index cases; elimination of Dominican Republic cases; and moratorium regarding Cuban Refugee Program. Currently operating 13 active and 6 potential double agents against Cuban Intelligence Service, decrease from last inspection (24 double agents). 9 of 14 Cuban United Nations officials identified as known or suspected intelligence agents.

Division programs continually being re-evaluated and 2 programs have been deleted since last inspection. Inspector suggested Division explore possibility of discontinuance of Protection of Strategic Air Base Program. Streamlining operations and procedures instituted by Division should result in savings to Bureau.

ADMINISTRATIVE OPERATIONS VERY GOOD

Front office and section supervision effective and efficient. Form errors detected 1.69% (last inspection 1.74%). No substantive errors detected. Stenographic production 2.33 pages per hour, up from previous inspection but substantially below Seat of Government (SOG) average of 3.20 pages per hour. Retyped pages above SOG average. Inspector emphasized need to increase production and decrease errors. No errors located in time and attendance registers affecting fringe benefits. No abuse of sick leave noted. Odd-hour shifts justified. Voluntary overtime equitably shared and productive. Division economy conscious. Stops on incoming communications reduced from 5 to 4 since last inspection -- justified. No unnecessary delays in handling mail or files noted. Supervisors alert for delayed reporting by field.

PERSONNEL MATTERS VERY GOOD

Total personnel 308 (approved complement 314 -- 127 Agents and 187 clerks). Requests made for 2 additional Agent supervisors due to substantial increase in work load Racial Intelligence Section; and 2 clerical employees in Racial Intelligence and

Latin American Sections, respectively. Work load in Racial Intelligence Section has increased substantially but based on Inspector's analysis of overall work load, it is believed Division can absorb needed increase of 2 Agents in Racial Intelligence Section and still reduce complement by 2 Agent supervisors, thereby reducing Agent supervisory staff from 127 to 125 (previously cut from 130 to 127 when streamlining security procedures adopted). Based on increased work load in Racial Intelligence Section, addition of one clerk believed justified (handled separately). Request for additional clerk in Latin American Section not justified due to reduction of work load. Assistant Director agreeable to reductions in Agent personnel (handled separately). No overweight Agents; one Agent limited duty -- retention justified. No Agents on probation -- morale appears high.

CONTACTS EXCELLENT

Assistant Director and supervisors in Division maintain 140 contacts in varied fields, all in position to furnish information and services in foreign and domestic fields.

INSPECTION - DOMESTIC INTELLIGENCE DIVISION
ASSISTANT DIRECTOR W. MARK FELT
4/2/70 - 4/17/70

SUMMARY

Officials: William C. Sullivan, Assistant Director in Charge since 6/2/61; Inspector Joseph A. Sizoo, Number One Man and Branch Chief (Internal Security - Liaison - Research Branch) since 9/13/57; Inspector Donald E. Moore, Branch Chief (Espionage - Intelligence Branch) since 10/14/56. Last inspection: 5/1 - 19/69.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). No change in space which is secure and well maintained. Minor housekeeping delinquencies noted were corrected or ordered corrected. 2 cars assigned to Division fully utilized. No safety defects and no accidents since last inspection.

Specific Division Operations - Excellent (Last Inspection - Excellent). Violent racial extremist activities continue to increase -- some international ramifications. Black Panther Party expanding and brazenly advocating overthrow of Government by force. Case load up 5.10%; racial and ghetto informants increased 12.8%. Bureau supervision adequately intensified.

Inspector recommended continuation of moratorium on investigation and reporting concerning Security Index subjects to permit continued use of field personnel on higher-priority matters (approved separately). Division has vigorously pressed investigation of New Left terrorists and contributed to 7 convictions and 18 additional indictments arising out of violence at the Democratic Convention in Chicago. Need for additional coverage of New Left violence stressed. Division accomplishments continue at high level with coverage and disruption of subversive groups and Soviet-Bloc representatives. White House, Attorney General, and interested agencies promptly advised of pertinent developments. SOLO operation continues to furnish valuable information -- 4 missions completed since last inspection.

Total security matters pending in field 3/31/70 - 37,746, up substantially from year ago. Security and potential security informants decreased slightly -- attributable

Re: Inspection - Domestic Intelligence Division

to Bureau-wide stress on quality. No field delinquency over 7% in last 6 months in any classification supervised by DID.

67 double agents currently being operated against Soviets (66 last inspection). 207 under development as potential double agents (218 last inspection). 5 defectors in place, all out of country at present time. One Soviet official arrested since last inspection -- allowed to leave country by State Department. 2 persona non grata cases involving Soviets. Nationalities Intelligence Section directing operation of 14 active and 11 potential double agents against Cuban Intelligence Service. 9 of 18 Cuban United Nations officials identified as known or suspected intelligence agents. 5 double agents being operated against Albania, 8 suspected Chinese agents in United States. Informants on Chinese intelligence matters increased to 103 from 64 last inspection. 61 double agents furnish valuable information on 7 satellite countries -- same as last inspection.

Foreign Liaison operations effectively supervised. Office at Manila closed and new office at Madrid opened. Inspection Division recommended reduction Agent complement of Rome Office from 2 to 1 (approved separately). Domestic Liaison effective but reduced to absolutely essential functions. Personal liaison with CIA discontinued.

Research Section, in existence since 1/12/70, has prepared valuable specialized summaries and studies. Agent complement of section reduced by 1 with reassessment of priorities.

Administrative Operations - Fair (Last Inspection - Very Good). Front office and section supervision generally effective. Incident detected involving airtel to 16 field offices with substantial impact on Agent manpower initiated out at section level when higher authority should have been obtained (handled separately).

During inspection, special survey was made to determine possibility of reducing supervisory complement in DID and commensurate reduction of Agent manpower in field by reassessing priorities of security programs. Inspector proposed reduction of 8 supervisors as follows: Soviet Section - 2, Sino-Satellite Section - 1, Nationalities Intelligence Section - 2, Research Section - 1, Liaison Section - 2. Assistant Director Sullivan advised if recommendations approved they could be implemented by cutback in lower priority programs. Reductions in Research and Liaison Sections to be accomplished by cutback in services at the Seat of Government (SOG) with no corresponding reduction in field manpower (approved separately). DID proposed curtailment of coverage in the East-West Exchange Program and most Soviet unofficial visitors to the U. S. DID also proposed elimination of certain phases of the counterintelligence program in the Soviet Section, elimination of all but key investigations involving Americans traveling in Soviet Union, Cuban Refugee Program, Cuban travel cases, and curtailment of the EOCOV Program. These proposals or modifications thereof

Memorandum to Mr. Tolson
Re: Inspection - Domestic Intelligence Division

approved separately and it is estimated 25 field Agents can be diverted to more essential programs as a result of these changes.

During inspection, other suggestions were made to streamline supervision and delegate more routine work to qualified clerical personnel. Suggestion also made to have statistical accomplishments of racial informants recorded, same as criminal informants, for budgetary purposes.

No substantive errors detected. Form errors down from last inspection. Stenographic production below SOG average (3.17 to 3.49 pages per hour). Training stressed. Voluntary overtime equitably shared and productive. Division economy conscious. No unnecessary delays in handling mail or files noted. No errors affecting fringe benefits noted in time and attendance records. Odd-hour shifts justified.

Personnel Matters - Very Good (Last Inspection-Very Good). Approved complement 312 (126 Agents and 186 clerical) -- up 1 Agent and down 1 clerk since last inspection. As a result of streamlining measures and realigning of priorities Inspector recommended and Director approved reduction in Agent supervisory complement from 126 to 118 (reduction of 8). Before completion of inspection it was recommended and approved that 2 of 8 be retained for diversion to supervision of violent New Left groups. (Net supervisory reduction 6 and current approved complement is 120.) Clerical complement adequate but not excessive. No Agents on probation, overweight, or on limited duty. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and Division officials maintain valuable high-level contacts, all in a position to furnish information and services of interest to the Bureau in foreign and domestic fields.

Dear Sir:

I want to thank you for the privilege of attending the Advanced Security (Soviet Espionage) In-Service Class, 6/1 - 12/70. It was the best organized, most comprehensive and most instructive such class in my experience. It was helpful not only to agents from the larger offices, but also to those serving in Resident Agencies where there may be only one agent with such cases.

I would also like to thank all the personnel of the Soviet Section who made the class so successful and enjoyable; especially ^{b6}
Elmer W. Larson, Eugene C. Peterson, William A. Branigan, and Donald Moore.

Sincerely yours,

James J. McCarthy

This is to advise that while driving my personally owned automobile on Interstate 81, north of Harrisonburg, Virginia, on November 8, 1970, I received a traffic ticket for exceeding the speed limit by eleven miles per hour.

I was traveling with my family with very limited traffic and did not realize I was exceeding the speed limit but passed through a radar zone and according to the radar was exceeding the speed limit by eleven miles per hour. I will, of course, pay the fine set.

I regret very much that this happened. It is the first time I have received such a summons in approximately thirty-five years of driving experience. I will make every effort to prevent recurrence.
